Dear Susan

Planning Application Number: 07/00632/WDF

Installation and operation of five wind turbines and associated infrastructure (including transformers, access tracks and temporary construction compound) for the generation of wind power (as part of a larger scheme for 12 wind turbines)

Planning Application Number: 07/00632/WDF

Installation and operation of five wind turbines and associated infrastructure (including transformers, access tracks, a sub-station and meteorological mast) for the generation of wind power

Thank you for the opportunity to comment on the above applications. It appears that both applications are re-submissions.

As you will be aware, in our response to the original applications – 07/00632/WDF (dated 28 March 2007) and 07/00632/WDF (dated 19 April 2007), the Assembly supported both applications in principle as helping to implement the RSS by providing renewable energy generation.

On the basis that the applications are resubmissions, the Assembly's position has not changed. We would therefore wish to reiterate our original comments made on the 28 March and 19 April 2007.

I hope that you find these comments helpful. If you have any further queries about our response, please do not hesitate to contact me.

Yours sincerely
